

Regulated Reports

ESG Report - Apple Inc. (2019)

General Information

- **Company Name:** Apple Inc.
- **Legal Form:** Corporation
- **Country of Incorporation:** United States
- **Financial Year:** 2019

Scope of the Report

The report includes environmental data for Apple Inc. for the financial year 2019. It covers the company's operations globally.

Governance Structure

Apple Inc. has a robust governance structure with a board of directors overseeing management and internal control systems to ensure compliance and ethical practices.

Business Strategy

Apple's business strategy focuses on innovation, product quality, and customer experience while aligning with sustainability objectives through energy efficiency and renewable energy initiatives.

Sustainability Strategy

Apple is committed to becoming more sustainable by reducing its environmental impact, increasing renewable energy use, and promoting recycling and responsible sourcing.

Business Model

Apple's business model emphasizes product design for longevity, recycling programs, and reducing carbon footprint throughout the supply chain.

Overall Environmental Performance

Apple has made significant progress in reducing greenhouse gas emissions, water usage, waste generation, and biodiversity conservation efforts in 2019.

Greenhouse Gas Emissions

Apple has been transparent about its greenhouse gas emissions, setting targets to reduce emissions from its operations and supply chain.

Energy

Apple has focused on reducing energy consumption and increasing energy efficiency in its operations, as well as transitioning to renewable energy sources.

Water and Marine Resources

Apple has implemented water conservation measures and initiatives to minimize potential pollution of water sources from its operations and supply chain.

Biodiversity and Ecosystems

Apple has taken steps to protect biodiversity and ecosystems by promoting responsible sourcing practices and conservation efforts.

Circular Economy

Apple has integrated circular economy principles into its business model by promoting product recycling, refurbishment, and material recovery.

Overall Social Performance

As the focus is on environmental factors, social performance data for Apple Inc. in 2019 is not included in this report.

Overall Governance Performance

As the focus is on environmental factors, governance performance data for Apple Inc. in 2019 is not included in this report.

ESG Reporting Due Diligence

Apple has robust due diligence processes to identify and address environmental risks in its value chain, ensuring sustainable practices are followed.

Assurance

Apple has established assurance procedures to verify the accuracy and completeness of its environmental sustainability report for 2019.

This ESG report provides an overview of Apple Inc.'s environmental performance for the year 2019, highlighting its efforts towards sustainability and reducing its environmental footprint.
